WORK EXPERIENCE

Front-end Developer Intern   **August 2023 - September 2023**

CodSoft (Virtual Internship)

- Designed and developed a captivating Landing Page using HTML and CSS to effectively communicate product features and drive user engagement.
- Crafted a compelling Portfolio website with HTML, CSS, and JavaScript, showcasing projects and skills to potential employers.
- Engineered a user-friendly Calculator using HTML, CSS, and JavaScript, demonstrating problem-solving abilities and front-end development expertise.

Summer Trainee   **June 2023-July 2023**

CSEB (Raipur)

- Directed the front-end development of the Online Examination System website, refining user experience and interface design.
- Collaborated with design and functionality teams for seamless feature integration. Leveraged front-end technologies to create an intuitive and visually engaging UI.
- Implemented responsive design for optimal usability across devices. Contributed to improving user journey and platform interactivity.

PROJECTS

NewsHarvest - A News App (React.js)   GitHub Link   **November 2023**

- Developed 'Newsharvest,' a ReactJS and Bootstrap web application for consolidating top news headlines.
- Fetched news articles from an API and enabled category-based news filtering (science, health, business, entertainment, etc.).
- Implemented a search functionality for easy access to specific news articles.

Hotel Management System (C++)   GitHub Link   **February 2023**

- It is used for managing hotel stays via editing the customer credentials and room no.
- Check a customer record by entering the room number, and see all the allotted rooms.
- We can order food from the room based on timeline to Breakfast to Dinner.
